RE: Positive Covid-19 Test on Storm Lake St. Mary's Baseball Team

Dear Parents and Guardians,

An individual associated with the Storm Lake St. Mary's baseball team has tested positive for Covid-19. Results were received today after the test was conducted Monday. Team members were informed today of the news. As of now, no further games will be played and team members are asked to begin a 14-day quarantine consistent with CDC guidelines and public health recommendations for close contact with an individual testing positive for Covid-19. I have attached the document that outlines the guidelines given by the IDPH when summer sports were allowed to resume for you to refer to as necessary.

With respect to the individual's privacy, no additional details will be provided.

We will keep you updated should there be any changes.

Sincerely,

Mr. Berg

6-12 Principal
